Monday - Friday 7:30 am - 4:30 pm

Come to the Annual Members Meeting

Teamwork at Albany Mutual Telephone continues to increase the success of the cooperative.

Come to the Annual Members Meeting June 9th, 2010 to learn about what's going on at your cooperative and what is on the horizon.

2009 was an exciting year.

- The Fiber to the Home project was expanded by nearly 500 homes in the Freeport Area.
- Max Wireless services were launched - initially providing High Speed Internet to Holdingford and Avon, and now will provide a great cellular option for you.
- Other small improvements include additions for several Digital TV channels, a new phone switch, a new voicemail system which will provide additional calling features like Find Me services so callers can be routed from your Home Phone to Cell Phone to Work Phone.

The Annual Meeting is June 9th at 8:00 pm in the Seven Dolors Parish Gathering Center, in Albany.

Correction - Joe Hennen's name did not appear in the list of directors in the recently mailed Financial Statement. We apologize for this honest mistake.

get clued in - Sleuth channel coming in July

Get your fix of murder mysteries and investigation shows on Sleuth.

Sleuth will launch on Digital TV in the Premier package July 1st channel 326.

Telephone**

**Know what's below.
Call before you dig.**

Be sure to call 811 at least 48 hours in advance if you plan to:

- Do landscaping
- Install footings
- Plow drain tile
- Build or repair fences

Your Faster Internet

Browse faster with New High Speed Internet packages.

Upgrade from 768Kbps to 1.5Mbps (double your speed) for the same price you are currently paying.

Or increase your speeds even more and pay only \$5 or \$10 more.

Contract extension is required.

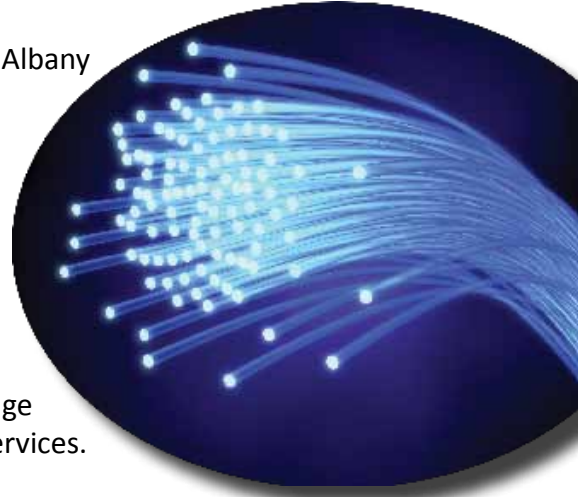

Fiber Optic deployment continues

As the 2009 Freeport Fiber to the Home project wraps up, the 2010 Albany project is well under way.

This year nearly 500 homes southwest of Albany will receive the cutting-edge Fiber-Optic technology.

Only 5% of all the homes in the country have the privilege of this amazingly powerful technology.

The response to this work has been positive, with many customers taking advantage of faster Internet speeds and Digital TV services.

Max Wireless - Chat for cheap

You can be chatting and texting for cheap with Max Wireless.

What is Max Wireless?

Max Wireless is a new wireless voice and data company made up of several Central MN telephone companies, and includes a store in St. Cloud.

Max Wireless uses the towers we have constructed throughout Central, MN, to allow you to have cheap wireless calling, and fast mobile data.

Awesome phones allow you to make video calls, and surf the Internet at speeds faster than any other cellular provider.

When you travel out of the area, your phone will use the signal from two major national providers. Stop in and take a test drive.

Max Your Bundle

Add a max wireless Mobile Phone to your High Speed Internet, Digital TV, and Home Phone bundle and save.

Plans start at just \$30 for Unlimited Calling and Texting

Get the touchscreen Nokia 5800 at a special intro price of \$79.
